comments: Congrats to the Ice Bears on their Macha Gold Div.Championship and to the Silver Team for their hard fought game. Dan and Steve, you do an excellent job. We enjoyed listening to the broadcasts. WebSports Radio was the only place we could get up-to-the minute scores. 1st class job!

comments: Great job on the Silver Division Championship game.

You guys are truly a class act, your coverage of the game was really straightforward and fair...more than what can be said for the officials of that game.

Where did they find those guys?

I cannot believe the blunders of officials in that game.
At least you could see the game, that they didn't.

sincerely

comments: Guys. I am a KU fan (and father of the KU Associate coach Timon Veach). I just want to say what a great job you do on your broadcast. It is one of the most professional broadcasts I have heard this year as I have been following the Jayhawks as they travel.

Thanks for the broadcast and your great work.

Dan and Steve - I wanted to take a minute and tell you how much my family enjoyed following the Ice Bear's games on Web Sports Radio this past season. I knew the transition from high school to college hockey was going to be hard. (On me!) I had coached my son's teams since he was a squirt and probably hadn't missed but a few of his games in all those years. You made the transition much, much easier!

Although we were able to attend several of the Ice Bears games this year having the ability to listen to the games we couldn't attend was a wonderful experience. It brought back memories of when I was a kid and our family used to gather around the radio to listen to a baseball game or a heavyweight bout. Instead we gathered around the Dell!

As much as I love to attend a game in person or view a sporting event on TV. Listening to games on the radio is a unique experience that in some ways is more rewarding.

I found your broadcasts to be very professional and I can say without hesitation that you exceeded my expectations. Your ability to involve the coaches and players in your broadcasts added more to the overall experience and we are appreciative of their willingness to participate and the insights they provided.

I know a lot of people in the St. Louis hockey community. Several have kids playing in other college programs and I can assure you that envy is the right word to describe their feeling about my families ability to follow our son and his teammates on WSR!

Thanks for the memories and keep up the great work!
